- I found that Ms. Sherif was really supportive during the whole process. I felt really engaged in the topic throughout the course. I found everything from the choice of papers to the presentation times of each topic was thought of to our benefit.
- It was a very interactive seminar, which I found really positive. Raisa was always open for question, really understanding of any problems and ready to help whenever we needed something.
- nice papers
- Raisa did a great job! The 1 on 1 talks were really helpful for me. I got a very recent and interesting paper assigned. The presentation took place in a relaxed but still professional environment. I am currently in my 4th semester and it's my first university seminar.
- Really interesting, well structured. Only the discussion I think prof took too much control over the discussion rounds
- Sehr gutes Gefühl
- Very interesting seminar, appealing topics. Some minor opportunities to improve organisation (outline of seminar paper received two weeks after writing period started). But all in all a very compelling seminar with a extremely helpful and friendly teacher :)
